Getting Startup and Registering Devices 0003

If this is the first time you have added a new device to our platform, you should first register with it ([new user](#)), since in this way it will be much easier to incorporate new devices and their management.

1. Connect the device.

- Look on your phone or laptop WiFi generated by the new device (**AVF_Smart**)   - Connect to this network.   - Access the device configuration ([192.168.4.1](#))   - Configure network parameters   - Disconnect from the home network   - Click on the link that appears in the configuration sheet
